

# DESIGNING EFFECTIVE SLIDES

## Hands-on exercises to develop an upcoming presentation or improve a current one

1. Think of a recent presentation that you gave or attended. Were the slides visual aids or stand-alone documents?

2. Take a slide and re-do it following the tips to avoid the slide becoming a visual crutch.

3. Take a slide and check your word count. Re-do it for simplicity if needed.

4. Design a slide to practice revealing content as needed using animation.

5. Find some data of interest. Make three different slides demonstrating effective ways to display the data.
